

PLANNING AND PROGRAMMING

07/25/18

Beginning with an introduction and kick-off discussions from ADOT leaders; this module will provide guidance in the MPD planning and programming process along with explaining the role of MPD and of the 5 year Transportation Program. With representatives from LPA and JPA, this course will identify the different groups and agencies that can initiate, review and approve a project and provide important information and feedback in an open forum discussion. *This program follows the current Project Development Process Manual.*
